

Annual Training Product Development Plan 2023-2024

Annual Training Product Development Plan

The 2023-2024 Annual Training Product Development Plan provides an overview of the training products being developed as part of Powering Skills Organisations Activity Projects.

Training Package	Title	Descriptor	Scope	Prioritisation	Start Date	Expected Completion Date
UEE Electrotechnology Training Package	Creating a Training Product Gateway into the Energy Sector	To review and rationalise the current suite of certificate II qualifications with the intent to create a fit for purpose Certificate II qualification that supports the various industry sectors aligned with the energy sector, including renewable energy industries.	To review the Certificate II (Career Start) the industry recognised gateway to prepare individuals for further training in the electrotechnology industry. Review and rationalise the suite of Certificate II Qualifications with the intent to create a fit for purpose Certificate II Qualification that supports the various industry sectors aligned with the energy sector, including renewable energy industries.	Routine The objective is to provide a fit for purpose career start qualification that allows for job mobility, an increase in women enrolments (and potential increase of women in the sector as a whole) and engagement with First Nations persons both in the qualification and in relation to renewable energy projects and connections to country.	11 March 2024	7 March 2025

Training Package	Title	Descriptor	Scope	Prioritisation	Start Date	Expected Completion Date
UEE Electrotechnology Training Package	Consolidation of Competency Development Units	To review and consolidate units of competency in the UEE Electrotechnology Training Package from fifteen units to between five and eight units. This activity will provide a suite of fit-for-purpose units of competency required by learners to demonstrate competency development relevant to their chosen qualification and simplify training packages in the energy sector	To perform a comprehensive review of the identified units within the UEE Electrotechnology Training Package, including identification of units with either inconsistent language or commonality to a high degree with other competency development units.	Routine The objective is the simplification of these packages for the energy sector by delivering fit for purpose units of competency focussing on the learner's competency development.	15 April 2024	31 October 2024

Attachment A – Components included in the Creating a Training Product Gateway into the Energy Sector Project

Product Type	Qualification / Unit / Skill Set Code	Qualification / Unit / Skill Set Title	Changed required (new training product, update, deletion etc.)
Qualification	UEE22020	Certificate II in Electrotechnology (Career Start)	Update
Qualification	UEE22120	Certificate II Sustainable Energy (Career Start)	Update
Qualification	UEE21220	Certificate II in Antennae Equipment (Release 3)	Update
Qualification	UEE20520	Certificate II in Computer Assembly and Repair (Release 2)	Update
Qualification	UEE20720	Certificate II in Data and Voice Communications (Release 3)	Update
Qualification	UEE20920	Certificate II in Electronic Assembly (Release 3)	Update
Qualification	UEE21920	Certificate II in Electronics (Release 2)	Update
Qualification	UEE21020	Certificate II in Fire Alarms Servicing (Release 3)	Update
Qualification	UEE21420	Certificate II in Remote Area Power Supply Maintenance (Release 3)	Update
Qualification	UEE21620	Certificate II in Security Assembly and Set-up (Release 2)	Update
Qualification	UEE20120	Certificate II in Split Air Conditioning and Heat Pump Systems (Release 3)	Update
Qualification	UEE21720	Certificate II in Technical Support (Release 3)	Update

Product Type	Qualification / Unit / Skill Set Code	Qualification / Unit / Skill Set Title	Changed required (new training product, update, deletion etc.)
Qualification	UEECD0017	Establish and follow a competency development plan in an electrotechnology engineering discipline	Update
Qualification	UEECD0027	Participate in development and follow a personal competency development plan	Update
Qualification	UEECD0056	Apply methods to maintain currency of industry developments	Update
Qualification	UEECO0004	Participate in appliance servicing work and competency development activities	Update
Qualification	UEECO0005	Participate in business equipment work and competency development activities	Update
Qualification	UEECO0006	Participate in computer equipment work and competency development activities	Update
Qualification	UEECO0007	Participate in electronics and communications work and competency development activities	Update
Qualification	UEECO0008	Participate in fire protection control work and competency development activities	Update
Qualification	UEECO0009	Participate in instrumentation and control work and competency development activities	Update
Qualification	UEECO0010	Participate in refrigeration and air conditioning work and competency development activities	Update
Qualification	UEECO0011	Participate in security equipment work and competency development activities	Update
Qualification	UEECO0012	Participate in voice and data communications work and competency development activities	Update

Product Type	Qualification / Unit / Skill Set Code	Qualification / Unit / Skill Set Title	Changed required (new training product, update, deletion etc.)
Qualification	UEECO0022	Participate in electrical machine repair work and competency development activities	Update
Qualification	UEECO0023	Participate in electrical work and competency development activities	Update
Qualification	UEECO0024	Participate in switchgear and control gear work and competency development activities	Update
