Notice to Stakeholders: Use of templates in the UEE training product review

Powering Skills Organisation (PSO) would like to advise stakeholders of a temporary adjustment to the approach being taken for the UEE Training Product Review.

At this stage, **PSO will not be utilising the Appendix B – ASK Template** due to the limited guidance currently available from the Department of Employment and Workplace Relations (DEWR) regarding its expected structure and application. Proceeding without this clarity may introduce avoidable risk to the consistency, quality, and governance of the UEE training product review process.

To ensure a clear, well-governed, and transparent development process, PSO will continue to use the Appendix A Template as the sole reference point for all documentation across the project. This approach will maintain alignment with TPOF compliance expectations and safeguard the integrity of the qualification and unit development work currently underway.

Once further guidance from DEWR is received regarding the specific requirements and format of the Appendix B template, PSO will review its position and consider integration where appropriate.

PSO appreciates the understanding and ongoing collaboration of all industry partners, Technical Committee members, and Subject Matter Experts as we continue to deliver high-quality, industry-aligned training outcomes.

If you have any questions, please contact us at training@poweringskills.com.au
